ADDENDUM-Harmony, CA 93435

The Doyle-Morgan Structural Engineering Company, 1900 State Street Suite K, Santa Barbara CA is the outfit retained by the USPS and who claimed the old creamery needed further inspection. There were some concerns about its structural Safety.

The USPS stated that if Mr. Mehdizadeh did not have the building repaired, the USPS would do the work themselves and deduct it from the Landlord's rent. This never happened.

The engineering company representatives were inspecting ALL the central coast post offices after the San Simeon quake.

Once receiving notice, Mr. Mehdizadeh brought in Lampman & Smith, a local team which does business in in SLO County (not Santa Barbara) and is familiar with the business codes, local requirements, etc. The letter reads that Mr. Mehdizadeh brought in the Santa Barbara Firm. This was not the case.

Very truly yours,
